**Crimes against humanity being committed in our name...!!!**

**US "death squad envoy" arrives in Egypt – and the slaughter begins**

**Why does the US feel the need to destroy Middle Eastern countries? Ironically, it isn't even about US interests. It's about Israel's "Oded Yinon plan" to annihilate Israel's neighbors and seize all the land between the Nile and the Euphrates for Greater Israel. That is why, as *Gen. Wesley Clark revealed*, Israel took over the US via the 9/11 coup d'état – with a plan to destroy "seven countries in five years" in service to Netanyahu's "Clean Break" document, itself an update of the Oded Yinon plan to destroy the Middle East for Israel.**

The Zionists have been grumbling "something has to be done about [that truther Morsi](#)" ever since he became Egypt's first-ever democratically-elected leader

My [new Press TV article](#), published Monday, is looking prophetic – or as we Muslims prefer to say "precognitive."

When the US sends a "death squad ambassador" to Egypt, you can figure that the big slaughter is about to begin. As of today, it has begun. Just as I predicted, the mass slaughter of Morsi/democracy supporters was triggered by false-flag terror.

[Yahoo News](#) reports: "Live (Egyptian) television footage on several channels appeared to show hooded Brotherhood (sic) gunmen brandishing what appeared to be small automatic rifles and firing them in the direction of soldiers."
